## Memphian On Isabel When Two Subs Sunk

Lieutenant-Commander Ernest L. Gunther, son of M. H. Gunther, cotton buyer, 110 South Front street, was executive officer and navigator of the destroyer Isabel when that vessel was cruising off the coast in the latter part of 1917 and early part of 1918, when two German submarines were sunk. In April, 1918, Gunther was put in command of the vessel and remained there until May, 1918, when he was given command of a larger vessel, the destroyer Jarvis. The Isabel, now at anchor off the Memphis wharf, is a ship of 1,000 tons. The Jarvis is a 1,100-ton boat.

Signal bravery and courage shown by the Memphian soon won for him an other advance ment and when the government was looking for commanders for the latest type of destroyers which displace 1,400 tons, Lieut. Gunther was one of the men chosen. He was put in command of the destroyer Elliot.

A telegram received by M. H. Gunther Thursday afternoon advised him of the landing of his son on the destroyer Elliot at Philadelphia, after an extended cruise in the Mediterranean.

The vessel has been in the Mediterranean and the Adriatic protecting American interest in case there should be trouble in that quarter of the globe. The Elliot visited Florence, Trieste and other Mediterranean and Adriatic ports.

## Negro Child Dies In Agony From Rabid Dog's Bite

The neglected bite of a rabid dog, which developed into hydrophobia, brought to a 4-year-old child in a most horrible manner, according to a report filed Thursday with the city health department.

The victim was Katie Palls, a negro child, who lived at Horn Lake road and Mitchell avenue. She was bitten by a stray cur on April 20, but no attention was paid to the scratches caused by the dog's teeth.

On May 28, more than five weeks after the bite, the child was taken to the hospital where she died in agony. The child was suffering from hydrophobia, a disease which is almost always fatal.

For three days the little girl lingered, suffering what medical science has termed most horrible tortures. Mercifully death came on May 30.

The case for which the little Palls girl also bit Nigger Williams and his little daughter. They, too, are negroes. But they took no chance with the dog bite. Instead, they took the Pasteur treatment, with the result that both are alive today and have suffered no ill effect from the bite of the rabid animal.

## LIEUT. HAWKS MAPS CRUISE OF FLOTILLA

Lieut.-Commander Wells Hawks, who directed the cruise of the anti-submarine flotilla now anchored in the harbor off the Memphis harbor, arrived Thursday from St. Louis, and in conference all day with the city health department.

Lieut. Hawks, in command of the flotilla, and Capt. T. N. Vinson, in command of the destroyer Elliot, are the only two of the flotilla who have not been completed. The vessels will traverse the waters of the Mississippi as far up as the stage of the river will permit.

The flotilla will go up the Ohio river and other tributaries while the sealabers will cruise in the Gulf of Mexico in places inaccessible to the boats and help in the work of stimulating public interest in the United States navy.

According to Lieut. Hawks it will be about six weeks before the flotilla will be back in Memphis on the return trip. On that occasion the submarine K-5 will go through maneuvers in the harbor and ample time will be given for all who desire to meet the boats.

Bearing a message from Mayor F. L. Monteverde, the flotilla neaplanes topped off to Cairo Thursday and will deliver the message to the Cairo mayor from Memphis by about sundown Thursday. It was stated. The flotilla will weigh anchor at 1 o'clock Friday afternoon.

Lieut.-Commander Wells Hawks has numerous friends in Memphis, having visited here as press agent for such three or more river or gulf shows as Ringling Bros., Mary Pickford and Olga Netherole.

## TWO YOUNG WOMEN FACE LARCENY CHARGE

Merchandise of every description that would appeal to the fancies of a modern woman, valued between \$500 and \$700 and alleged to have been stolen by two young women, was recovered late Wednesday afternoon by operators of the O'Haver detective agency. The alleged loot consists of millinery, picture hats and bonnets, women's wearing apparel, and silk and costly lingerie.

According to George R. O'Haver and a woman operator, who were stationed at Lowenstein's and Gerbers' department stores, Mabel Jones 25, and Lillian Hollowell, 22, both of 123 Adams avenue, under arrest on charges of larceny, had been guilty of systematic shoplifting. The alleged loot was found in their rooms. The detectives say it came from a dozen or more local stores. All day Thursday, department store officials visited the O'Haver headquarters to identify the property.

O'Haver said that Mabel Jones had been under suspicion for some time. Lillian Hollowell is a young mother who shot and wounded her husband a few weeks ago.

## One Lot of 39 Women's New Spring Suits To First Comers \$3.98 In the Basement

Even the best buyers occasionally make mistakes. We made a mistake when we bought these suits and we're willing to pay for it.

There are thirty-nine of them—the styles are attractive, but the materials are "cheap."

Suits such as these are sold in many Northern and Eastern stores for \$10.00 and \$12.50, and when we bought them to sell at \$7.50 we thought we had made a great trade, but we see now we were mistaken.

They are not suited to our trade and we have determined to get rid of them at any cost.

They come in black and white novelty shepherd checks; sizes from 16 to 38; if you can use one of these suits, take your choice at \$3.98. (Basement.)

Several years ago he leased a place about 12 miles southeast of Yazoo City, and later purchased it and named it Myrtle Grove plantation. Since the very beginning of his farming operations he has devoted all his energies to cattle, sheep and hogs, and he has been highly successful. The man is T. H. Griffin, of Yazoo City. ## BIS-MAG FOR ACID STOMACH

Here at last is a guaranteed remedy for all those symptoms that so surely arise from acidity of the stomach. Physicians agree that in nine cases out of ten stomach disturbance, indigestion, gas, etc., is caused by the development of too much hydrochloric acid in the stomach, which irritates and burns the delicate stomach lining, souring and fermenting the food and delaying digestion. Instead of seeking relief from peppermint pills or artificial digestants, which merely force the sour acid food mass from the stomach to the intestine, try a small box of BIS-MAG

tablets to sweeten the stomach and neutralize the excess acid. Then your stomach will digest its food naturally and there will be no sourness, gas or flatulence. BIS-MAG gives prompt relief and is a perfectly safe remedy to use, being a combination of Bismuth and Magnesia, and with other standard neutralizing ingredients. One box will prove its value in practically any case. Your money back if it fails to give relief. Sold by druggists everywhere. Stomach sufferers should certainly give this great remedy a trial.
